Tecpro Systems Limited enters into a License Agreement with Pneuplan Oy of Finland

- To undertake projects involving Dense Phase Pneumatic Conveying for Fly Ash & Allied Materials

Gurgaon, February 05, 2011: Tecpro Systems Limited (Tecpro), a leading player in the material handling sector, providing turnkey solutions in material handling, coal and ash handling, Balance of Plant (BOP) and which undertakes Engineering, Procurement & Construction (EPC) contracts in the power sector, has announced that it has entered into a License Agreement with Pneuplan Oy, Finland for projects involving Dense Phase Pneumatic Conveying for Fly Ash & Allied Materials.

Tecpro with high operational expertise in 3 core functional areas of any project i.e. **Design & engineering, Manufacturing and Execution**, is looking to upgrade its existing expertise and technical know-how to design and execute Pneumatic Extraction and Conveyance Systems.

Pneuplan Oy, Finland has an extensive experience in Design, Supply, Erection and Commissioning of Pneumatic Extraction and Conveying Systems and undertakes manufacturing of Dense Phase pneumatic conveyance of various materials. Pneuplan Oy has achieved a high rating Alfa classification by Finnish rating authority.

Pneuplan has agreed to give exclusive rights to Tecpro to use the technology for Pneumatic Extraction and Conveying Systems developed or to be developed by Pneuplan including the information required for designing and selection, as well as technical know-how & drawings required to manufacture specialized products, provide information and assistance for the manufacture and testing of Dense Phase Pneumatic Conveying System including System guarantee.

About Tecpro Systems

Since the commencement of its operations in 2001, Tecpro has been instrumental in executing more than 1,000 material handling orders. The Company designs, engineers, manufactures, sells, commissions and services a range of systems and equipment to provide turnkey projects for the core infrastructure related sectors like power, steel, cement and other industries. In order to expand its scope of services, Tecpro integrated the ash handling business of Tecpro Ashtech Limited (TAL), previously known as Mahindra Ashtech Limited, with its existing material handling operations by way of amalgamation. Today, Tecpro has in-house capabilities for providing comprehensive solutions in material and ash handling systems.

The Company has ventured into various complimentary businesses across different divisions of the power sector with a vision to build an integrated business serving the sector. As per CEA records, Tecpro received the highest number of orders for coal handling plants during the Eleventh Five-Year Plan (2007-2012). The company also forayed into the EPC segment for thermal power projects in 2007, in which it managed the erection and commissioning of the boiler, turbine and generator (BTG) packages along with undertaking the engineering, design, supply and commissioning of other equipment and services. Leveraging its capabilities in coal and ash handling, the Company has also taken up turnkey BoP contracts in the thermal power generation sector. The business undertaken by the company broadly comprises four segments viz. material handling solutions, ash handling solutions, BoP/EPC contracts and other businesses such as supply of air pollution control equipment.
