

News Announcement

Tecpro Systems Limited receives orders worth ₹ 188 crore

- Debottlenecking of Raw Material Handling Plant for Durgapur Steel Plant worth ₹ 97.9 crore from Steel Authority of India Limited (SAIL)
- EPC order for additional coal conveying arrangement for 2 x 600 MW North Chennai Thermal Power Station Stage II Project at Athipattu, Tamil Nadu worth ₹ 71.5 crore from Tamil Nadu Generation and Distribution Corporation Limited (TANGEDCO)
- Lignite Handling Plant order of Kutch Lignite Thermal Power Station, Panandhro (Kutch) worth ₹18.6 crore from Gujarat State Electricity Corporation Limited (GSECL)

Gurgaon, March 15, 2011: Tecpro Systems Limited (Tecpro Systems), a key player in the material handling sector, providing turnkey solutions in material handling, coal and ash handling, Balance of Plant (BoP) and which undertakes Engineering, Procurement & Construction (EPC) contracts in the power sector, has announced that it has received orders aggregating to ₹ 188 crore from Steel Authority of India Limited, Tamil Nadu Generation and Distribution Corporation Limited and Gujarat State Electricity Corporation Limited.

Tecpro Systems with high operational expertise in 3 core functional areas of any project i.e. *Design & engineering, Manufacturing and Execution*, will undertake:

1. For SAIL, the design, engineering, manufacture, supply, handling, erection, testing and commissioning of plant & equipment including civil, structural, electricals & process control and demonstrations of performance guarantee

parameters of the system for debottlenecking of Raw Material Handling Plant for Durgapur Steel Plant.

2. For TANGEDCO, the design, engineering, manufacture/supply, testing at works, storage, erection, testing and commissioning of additional coal conveying arrangement to the 2 x 600 MW North Chennai Thermal Power Station (NCTPS) Stage II Project on EPC basis including all required mechanical, electrical, civil/structural, control & instrumentation scope and handing over after satisfactory performance guarantee tests for conveying crushed coal from ECHS Stack yard to JT-IB of NCTPS.
3. For GSECL, the design, engineering, manufacturing, supply, civil works, erection, testing and commissioning for Augmentation of Lignite Handling Plant of Kutch Lignite Thermal Power Station (KLTPS), Panandhro (Kutch).

Commenting on the development, Mr. Amul Gabrani, Vice-Chairman & Managing Director, Tecpro Systems said, "We are delighted to announce these three orders which we have bagged. The TANGEDCO will be completed over a period of twelve months whereas the SAIL order will be executed over a period of 18 months. The consistent growth in our order book position is a result of our performance track record and we are well positioned to avail the abundant growth opportunities going forward."

About Tecpro Systems

Since the commencement of its operations in 2001, Tecpro Systems has been instrumental in executing more than 1,000 material handling orders. The Company designs, engineers, manufactures, sells, commissions and services a range of systems and equipment to provide turnkey projects for the core infrastructure related sectors like power, steel, cement and other industries. In order to expand its scope of services, Tecpro Systems integrated the ash handling business of Tecpro Ashtech Limited (TAI)

previously known as Mahindra Ashtech Limited, with its existing material handling operations by way of amalgamation. Today, Tecpro Systems has in-house capabilities for providing comprehensive solutions in material and ash handling systems.

The Company has ventured into various complimentary businesses across different divisions of the power sector with a vision to build an integrated business serving the sector. As per CEA records, Tecpro Systems received the highest number of orders for coal handling plants during the Eleventh Five-Year Plan (2007-2012). The Company also forayed into the EPC segment for thermal power projects in 2007, in which it managed the erection and commissioning of the boiler, turbine and generator (BTG) packages along with undertaking the engineering, design, supply and commissioning of other equipment and services. Leveraging its capabilities in coal and ash handling, the Company has also taken up turnkey BoP contracts in the thermal power generation sector. The business undertaken by the company broadly comprises four segments viz. material handling solutions, ash handling solutions, BoP/EPC contracts and other businesses such as supply of air pollution control equipment.
